

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

WE have little fear as to the reception that will be accorded the accompanying selection of Games from the International Chess Tournament just concluded at New York. Experience has convinced us that the interest of Chess players in a Masters' contest continues long after the close of the meeting at which the mimic battles were fought, and that no class of Chess book is more popular than that which deals with examples of Chess skill from actual play. With such feelings we launch the third book of our **CHESS LIBRARY**, and in doing so hope we shall meet with the same encouragement as has resulted from our previous efforts. As we had occasion to explain in a former book, the Games now published in a collected form have already appeared in one or other of the many daily or weekly papers which devote a part of their space to the Royal Game, and we acknowledge our indebtedness accordingly.

THE NEW YORK CHESS TOURNAMENT OF 1889.

THE Sixth American Chess Congress was opened at New York, on Monday, the 25th March 1889, and was concluded, except so far as playing off the tie for first and second prizes was concerned, on Monday, the 20th May.

Twenty competitors entered the contest, and all of them fought through the various stages until the end, nothing, save a minor grievance with some members of the Committee, occurring to mar the success of the meeting, which proved to be the most protracted struggle known in the annals of Chess Tournaments.

Each competitor had to play two games with the other entrants, so that thirty-eight rounds were actually necessary for all. In the second round, however, drawn games had to be replayed, a rule which pressed very heavily on many of the competitors, who, in consequence, had to fight considerably over forty games, or in other words to bear the fatigue of daily contests for a period of two months. This, we are told in many of the best informed Chess columns, proved a most severe mental strain to some of them, even so far as to render them *hors de combat*, but we can hardly believe that our Chess Masters are so easily upset, or that even two months continued devotion to the Game is likely to exhaust their powers of endurance, any more than two months attention to business would prostrate any ordinary mortal. We doubt the policy

of claiming for Chess that its practice is such a severe tax as these writers pretend, and are of opinion that the competitors would endorse our view if they were canvassed on the point. But it seems to be the fashion to claim for Chess a position among the sciences, rather than keeping it in its proper sphere—a most enjoyable pastime.

On the succeeding page we give a list of the competitors, with the full score made by each. From this it will be seen that Tschigorin and Weiss tied for first honours, with a score of 29 each. By the laws of the Tournament they had to play a deciding match, victory to be accorded to the player first winning two games, exclusive of draws; but after four draws the match was to terminate, when, if the score was even the prizes were to be divided, but if either player should be a game ahead he should be declared the victor. Four games were contested in the match which was necessary between these two players, all of which resulted in draws, so that the score being equal the first and second prizes were divided.

The following is a list of the prizes, their value, and the names and scores of the winners:

First prize, 1000 dollars		M. I. Tschigorin	} 29 points.
Second „ 750 „		Max Weiss	
Third „ 600 „		I. Gunsberg	
Fourth „ 500 „		J. H. Blackburne	
Fifth „ 400 „		Amos Burn	
Sixth „ 300 „		S. Lipschutz	
Seventh „ 200 „		James Mason	

There were other prizes, for the best game, &c., but at the time of writing we have no definite details as to their value or distribution.

N.B.—In the games, the notes [D] refer to the Diagrams given in the margin.

The following is a list of the players, their full scores, and relative positions at the conclusion of the Tournament. In the table "1" represents a win, " $\frac{1}{2}$ " a draw, and "0" a lost game. The first figure is the score in the first round, and the second that of the final. In the latter case, where the score is given as $\frac{1}{2}$ it is the outcome of a third game, as draws in the second round had to be replayed.

In the Appendix will be found illustrated diagrams of noteworthy positions, where remarkably fine combinations occurred, as also illustrated problems.

ENGLISH CHESS PROBLEMS.—COMPILED BY JAMES
PIERCE, M.A., AND W. TIMBRELL PIERCE. Price 6s.
London: Longmans & Co.

THIS work contains 600 Problems. In Parts I. and II., a selection of the best Problems by English Composers, living and lately deceased; and in Part III., a set specially composed for the work.

"It is not too much to say that among these 600 problems are some of the very finest the world has ever seen."—*Illustrated London News*.
"For the manner in which the editorial part of the work has been performed we have nothing but unqualified praise."—*Westminster Papers*.
"Valuable and entertaining."—*Saturday Review*. "We trust that the hearty support of all who take an interest in the art may render **ENGLISH CHESS PROBLEMS** as great a success as it evidently deserves to be."
—*Examiner*.

CHESS PROBLEMS, with SUPPLEMENT.—BY JAMES
PIERCE, M.A., AND W. TIMBRELL PIERCE. Price 3s.
London: Longmans & Co.

"A selection of Messrs. Pierce's problems might challenge comparison with those of any author"—*Westminster Papers*. "The collection of problems embraces many studies of the highest class."—*Land and Water*.
"This book may fairly be placed beside any other collection of problems; charming alike in conception and execution, that might be ranked among the gems of Chess literature."—*Academy*. "The collection forms a splendid volume."—*La Strategie*.

STANZAS AND SONNETS.—BY JAMES PIERCE, M.A.
Price 3s 6d. London: Longmans & Co.

"Their highest merit—and it is by no means frequent in the poetry of the day—lies in their suggestive thoughtfulness. While they are provocative of thought they are admirably lucid in expression"—*Saturday Review*. "Most unpretending in appearance this little volume hardly promises the admirable workmanship it contains. Mr. Pierce's sonnets are well constructed, his stanzas are musical and his themes are interesting, sometimes sportive, sometimes charged with thought and instinct everywhere with a christian spirit."—*Queen*. "There is good sense, good feeling and a fair command of expression and melody in these poems."—*Spectator*. "The book is the work of a poet and not merely of a writer of verse. A true and fine feeling seems to pervade it. . . . I am specially delighted with such pieces as 'To a wave' and 'The Tide coming in.'"—Mr. W. Sharp, Editor of *Nineteenth Century Sonnets*.
